

18/07/2023

**Change Number: CO-02028**

**Change Type: 1 – New sub supplier (emergency)**

**Change Description:**

One of our bellows supplier has selected and validated a second source of PTFE 7AX blank to increase his bellows production capacity

**Change Rationale:**

Our supplier need to strengthen its supply of blank and reduce risks associated to a single source supplier

**Scope of Change:**

All our bellows air actuated pumps & dampeners plus their respective spare parts & kits assembled & sourced from our site of Saint Gobain in Charnay les Macon

**Not in Scope of this Change:**

Furon valves range and tube

**Change Impact / Risk Assessment:**

No risk has been identified on this change.

- Qualification was made by our bellows supplier and new manufacturing PTFE blank are conform to standards here below listed
  - ASTM D4894/D1708 (for tensile strength and elongation)
  - ASTM D792 (for specific gravity)
  - ASTM D 2240 (for hardness)
- Machining process and test will not change from our supplier
- Inspection process, Manufacturing process and final test will not change at Saint-Gobain Charnay-Lès-Macon

**Qualification Package (if applicable):**

Not applicable

**Implementation Date:**

This change is applicable for all pumps, dampener & kit produced after the 18th August 2023

Please take this opportunity to contact the Customer Service Team or your Saint-Gobain District Sales Manager should you have any questions / concerns.

Fabien Jakob  
Quality Manager
